

New CPJE Testing Company Selected

The Department of Consumer Affairs selected a new company to administer professional licensing exams. The Board of Pharmacy began using this new company to administer the California Pharmacist Jurisprudence Examination (CPJE) on June 1, 2007.

Please review the following information - - it will affect how you will take the CPJE.

Prior to June 1, 2007: The Board of Pharmacy (board) used Thomson Prometric (Thomson) to administer the California Pharmacist Jurisprudence Exam (CPJE). This change in vendors will not in any way affect the administration of the NAPLEX.

Effective June 1, 2007: Psychological Services, Inc. (PSI) began administering testing services for the CPJE. (Thomson no longer administers the CPJE for pharmacist candidates).

The board is taking every measure to minimize the effect on the candidates. Candidates should also be aware that the board also initiated a quality assurance assessment beginning on June 1, 2007 (this is when exam scores are held until the review is complete).

Information advising applicants on scheduling their CPJE is included in the Instructions: Application for Pharmacist Licensure and Examination in California, which can be downloaded at http://www.pharmacy.ca.gov/forms/rph_app_pkt2.pdf.
